Subject: MICROSOFT SETTLEMENT

My opinion and comments: Microsoft should get off the hookâ?|four years is enoughâ?| If another company has a better operating systemâ?|they should show it and the world will buy it instead of XP. My County and my City has computers and training in every Library Thanx to Bill Gates. Their Software is reasonably pricedâ?|litigation is never reasonable in cost.â?|Letâ??s settle it nowâ?| Charles Murrell, Redding California.
